PROFESSIONAL SUMMARY

Frontend Developer & Hackathon Team Lead specializing in rapid prototyping and engineering high-impact web applications using **React, Next.js, TypeScript, and Tailwind CSS**. Proven track record of leading teams in high-pressure 24-hour environments, translating complex problem statements into scalable, polished solutions. Consistently delivers production-ready MVPs from initial brainstorming to final pitch. **3× hackathon winner** who also builds AI-integrated products with LLM APIs.

HACKATHONS & ACHIEVEMENTS

2026
• TCS Technology Day Hackathon — **WINNER** (Vidyalankar Institute of Technology)
• ShieldIntern — AI-powered internship offer scam detection

10–11 Apr 2026
• NEOFUTURE — **FINALIST** (LR Tiwari College, Mira Road)
• CODE-A-THON — **FINALIST** (Vidyalankar Institute Of Technology)

2026
• EXCS Innovista 2026 — **WINNER** (with DepthWizard)
• CSI-VIT UI/UX Event — **WINNER** (Problem Statement 2)

3–4 Sep 2026
• IGNITE IT 8.0, 18-hour hackathon (SVKM's SBMP) — **FINALIST**

2026
• COEP MindSpark '26 (COEP Technological University) — **FINALIST**
• MUSA CodeX 2026 Hackathon — qualified for **FINALS** (Team BUBBLE SORT)
• Smart India Hackathon 2026, Internal Round (VIT) — qualified, **TOP 45** shortlisted teams (Team BUBBLESORT)

PROJECTS

Innovista winner
DepthWizard — 3D elevation & surface studio that turns imagery into metric terrain and LoD-1 digital-twin buildings (Depth Anything V2, DEM + nDSM); 717k-triangle mesh at 0.283 m RMSE.

SIH 2026
Prakalp Drishti — AI-powered preventive-vigilance and decision-support concept for monitoring central-sector projects and forecasting completion risk.

React · REST · LLM
ShieldIntern — AI-powered fake internship offer detection using a React frontend, REST APIs and LLM integration.

AI security
Mandate — AI security checkpoint that detects when an autonomous agent deviates from its assigned role and blocks or isolates harmful actions, even when its credentials are valid.

AI evaluation
PolicyAudit — Off-policy evaluation system using logged data, uncertainty estimates and sensitivity analysis to determine whether an AI policy truly improved outcomes or merely appeared to (traffic shifts, feedback loops, hidden confounding).

Campus privacy
Unsigned — Privacy-preserving institutional intelligence for campus anti-ragging cells.

Civic / climate
Varsha — Municipal environmental-exposure surveillance and flood/outbreak early-warning for Mumbai.

Agri-tech
MandiMitra — Joint economics optimizer for Indian farmers under Maharashtra APMC markets.

3D
NammaSpace — Photos or a video of a room → a photo-textured 3D model you can walk through in the browser.

Social service
Aahana Foundation website — built the organization's website as a social-service project.

Personal
Portfolio website — personal portfolio at 13amey.vercel.app.

SKILLS

Programming: C, C++, Java, Python, JavaScript (ES6+), TypeScript

Technical Domains: Web/App Development, React.js, Next.js, HTML5/CSS3, Tailwind CSS, Node.js, Express, MongoDB, Supabase, Firebase, Git/GitHub, RESTful & AI APIs (LLM APIs, Groq, Gemini)

Hackathon & Leadership: Team Leadership, Rapid Prototyping, Agile Execution, Pitching & Presentation, UI/UX Implementation

Engineering: Cross-functional collaboration, Scalable Architecture, Debugging, Testing, API integration

PROFESSIONAL EXPERIENCE

07/2026 to Current
Junior Frontend Developer
Foremark Technologies
- Engineered responsive, client-facing web applications using React, Next.js, TypeScript, and Tailwind CSS, improving cross-browser compatibility.
- Spearheaded API integration with backend services, optimizing data fetching logic and ensuring seamless full-stack functionality.
- Architected reusable functional UI components based on precise client requirements, increasing overall user engagement.
- Delivered 100% of production-ready feature rollouts on schedule across multiple end-to-end project lifecycles.

04/2026 to 07/2026
Frontend Developer Intern
Foremark Technologies
- Developed and optimized tailored frontend solutions across 10+ high-impact client projects, significantly enhancing core user experiences.
- Analyzed direct client feedback and business requirements to refine UI layouts and accelerate project delivery timelines.
- Executed rigorous UI debugging and testing protocols, reducing pre-launch interface defects and improving code maintainability.
- Partnered directly with stakeholders to gather technical requirements, ensuring 100% alignment with client business objectives.

EDUCATION

2029
Bachelor of Technology (B.Tech): Electronics & Computer Science
Vidyalankar Institute of Technology - Mumbai
GPA: 9.1 / 10 · Key subjects: Data Structures, Python Programming

WORKSHOPS

22 Aug 2026
• **Git & GitHub Workshop** — Dept. of Electronics & Computer Science, VIT, with Sarathi Labs (certificate of participation)
• **Line Follower Workshop** — organized by V-Clubs, VIT
• **Self-Balancing Robot Workshop** — organized by V-Clubs, VIT
